ABOUT 101 COPENHAGEN

101 Copenhagen is a Danish design brand founded in 2017. With a vision to honor exquisite quality and craftsmanship, the collection encompasses furniture, lighting and accessories in a timeless, yet modern design. With a true passion for materials and refined textures, organic shapes and colours, 101 Copenhagen presents the epitome of classics and must-have novelties for Scandinavian and international interior connoisseurs alike.

OUR CREATIVE DRIVE

The design of 101 Copenhagen is firmly rooted in the Scandinavian soil and nourished by Japanese minimalist aesthetics. Sharing an emphasis on quality materials, techniques and traditions, the meeting between the North and the East is notable in the holistic collections of 101 Copenhagen. The design approach is dynamic and characterised by freedom of expression - creating unique and timeless pieces without compromising on playfulness and individuality.

OUR DESIGN TEAM

An attention to detail and a shared sense of aesthetics is what drives the two main designers of 101 Copenhagen, Tommy Hyldahl and Kristian Sofus Hansen. Merging their backgrounds and experiences from the fashion industry, the Royal Danish Academy of Fine Arts and travels in Japan respectively, a narrative of minimalist, sculptural and conceptual design is evident throughout the collections. Translating and transforming the simplistic inspiration from Japan in a Scandinavian context is all about honouring quality, heritage and materiality while never seizing to compromise on form and function. Trained as an architect, the third designer, Nicolaj Nøddesbo, adds knowledge on innovative light solutions and timeless novelties to the 101 Copenhagen collections. 101 Copenhagen is a curated selection of tactile, bold objects standing out in a crowd and gathers as a whole.

Tommy Hyldahl, owner and main designer

With a background in fashion having spent years forecasting and analyzing future trends, Tommy Hyldahl has a natural attention to detail in materials, historical references and original design concepts. Similar to the process in fashion, the design at 101 Copenhagen begins with an idea that evolves and develops into a full layered narrative of each collection.

Kristian Sofus Hansen, main designer

With a background from the Royal Danish Academy of Fine Arts and having spent time living and studying in Japan, Kristian Sofus Hansen brings aesthetics and simplicity to the Danish design heritage and knows how to translate and transform these little signature details into the collection of 101 Copenhagen. Mainly designing sculptures and objects, it is a never ending source of inspiration for Hansen, whose aim is to create characteristic and functional design to remember.

Nicolaj Nøddesbo, designer

With a background from the Aarhus School of Architecture, Nicolaj Nøddesbo is developing innovative light solutions and timeless novelties for the 101 Copenhagen collection. Since joining the team in 2017, his mission has been to add personality and character to functional pieces, focusing on materiality, tactility and a sense of spatiality when creating minimalistic and sculptural design items.

THE NEW COLLECTION FROM 101 COPENHAGEN HAS ITS ORIGIN IN THE JAPANESE ZEN GARDEN, WITH INSPIRATIONS FOUND IN TRADITIONAL GARDEN TOOLS AND ORGANIC SHAPES OF NATURE.

Introducing 101 Copenhagen's latest collection – a fusion of Japanese Zen Gardens and minimalist design. Experience the sculptural elegance of Foku Chair, inspired by Zen Garden rake tools. Its fluted seat mirrors the gentle lines of sand and stone gardens, while providing luxurious comfort. Choose from Off-White Bouclé or versatile Taupe Sunproof fabric, resistant to stains and sunlight. Illuminate your space with light sculptures of glowing LED lamps. The ethereal Ghost Chandelier, this minimalist marvel merges light and sculpture, creating a captivating graphic design. With warm LED light and bronze metal fittings, it adds an artistic charm to any interior. The vertical Bow Lamp, elegantly bended like the string of a traditional Japanese bow, adds a sleek architectural detail. The Neon Table, a hybrid between side table and floor lamp, embraces the concept of furniture as artistic objects. Indulge in the perfect balance of sharp lines and gentle curves with the Tribu Lounge Chair. Its fiber concrete base and soft cushion pay homage to tribal sculptures, while the hand-painted finish and Taupe Sunproof fabric exude refined beauty. Rising from the ground like an art sculpture, the Artist Dining Table elegantly balances geometric shapes to form a focal point in any interior. Together with the Arc Dining Table, Artist goes perfectly together with Brutus Dining Chair, embracing a tactile and stone-looking surface. Combine with the new ceramic W-Candle Holder for a brutalistic and architectural interior scheme. Decorate your interior with organic shapes and objects inspired by nature. As an ode to the Japanese art of drapery, Orimono Vases reminisces the beauty of natural textiles falling in lavish and soft curves. Shinju, the Japanese word for Pearl, is a collection of oblong trays carried on ceramic pearls, ideal for storage and decorations. Beautifully sculpted with an uneven surface, the Curve Bowls adds an organic softness to any interior. Explore new variations of the popular Toe Chair. The Art Deco inspired lounge chair is now available in luxurious Off-White sheepskin or versatile Taupe Sunproof fabric, resistant to stains and sunlight. Immerse yourself in the serenity of a Japanese Zen Garden and the elegance of minimalist design. Elevate your space with 101 Copenhagen's exceptional collection and embrace the art of living.

FOKU CHAIR Inspired by the shapes of traditional Japanese garden tools, Foku is a full upholstery lounge chair made of simple geometric shapes merged into a sculptural furniture design. Foku meaning fork in Japanese, is a reference to the traditional rake tools used in Japanese Zen gardens for centuries. The fork, used to gently create minimalistic lines and waves in the sand, is reinterpreted into the fluted seat of the Foku chair. Several layers of carefully chosen foam types is combined to ensure a soft and highly comfortable seating experience, as well as emphasizing the sculptural and voluminous shapes of the chair. Combine several Foku Chairs to create a sofa lounge seating. Each Foku Chair includes two metal brackets, which can be mounted underneath the legs with a small screw. Foku comes in Off-White Bouclé and a Taupe fabric from Sunproof. The Taupe Sunproof fabric is suitable for both indoor and outdoor use. The fabric is highly resistant towards stains, water and sunlight. The fabric is highly resistant to stains, water, and sunlight, making it very easy to clean as well. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

W CANDLE HOLDER Inspired by brutalist architecture, the W Candle Holder is a captivating set of tilting columns that collide at sharp angles. This unique design draws upon the principles of brutalism, known for its raw, honest, and imposing aesthetic. By incorporating different mathematical angles, the point of collision between the columns is varied in height, resulting in a visually striking and dynamic composition. The W Candle Holder's strong graphic expression is achieved through the juxtaposition of these angular elements. Each column, carefully crafted with precision, showcases a distinct angle that adds to the overall composition's complexity. The interplay between the columns creates a sense of movement and tension, capturing the essence of brutalist architecture. With its sculptural form and attention to detail, the W Candle Holder stands as a testament to the marriage of artistic expression and mathematical precision. It serves as both a functional candle holder and a captivating piece of decor, making a bold statement in any interior space. Embodying the spirit of brutalism, this exceptional creation pushes the boundaries of design, evoking a sense of intrigue and admiration. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

GHOST CHANDELIER Influenced by minimalism art, Ghost Chandelier is all about combining light and sculptures into graphic lighting design. Ghost is characterized by an illuminating white acrylic tube, running in different directions to create an organic system of ambient light. Based on a hand sketch, the design adds a graphic and artistic atmosphere to the space. It attracts the eyes attention with its constantly changing appearance, forming different patterns and shapes according to the viewpoint. Ghost instantly becomes a statement piece in any kind of interior. Ghost Chandelier comes in two sizes and has an inbuilt LED light source with a warm colour nuance. Details of bronze metal fittings adds the last touch to the minimalistic design. The chandelier is carried by four stainless steel wires, adjustable to the desired room height. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

COBRA A tribute to the Cobra Arts Movement of the 1960s, the collection is the epitome of quirky vases that will add joy to any interior setting. Think whimsical, soft and organic shapes unmistakably reminiscent of human silhouettes and curves. True to the Cobra artists way of working, the series takes its starting point in naive hand sketches leading to bodily silhouettes. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

BABURU Balancing on top of a small bubble, the Baburu Bowl is a sculptural take on a traditional Japanese bowl design. Baburu, the Japanese name for bubble, comes in three different sizes, and can be used for both storage or stand alone as an artistic object to elevate a space. The series is made of ceramic as it is a hand glazed natural product, the colours may vary slightly. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

SPIDER Inspired by Brutalist Architecture from the 60s, the Spider Table is rich on architectural references. Characterised by its nine legs, the Spider Table creates a series of columns, reminiscing classic architecture with a distinctive play of shadows. The thick tabletop features a thin line around the edge, emphasising the square shape of the Spider Table. Spider Table is made of cast fiber concrete for a rich and tactile surface. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

CURVE & STICK Influenced by minimalism art, the Curve & Stick collection is all about combining light and sculptures into graphic lighting design. Named after its 'Stick' lampshade, each lamp is characterized by an illuminating white acrylic tube. The white acrylic tube holds an inbuilt LED light source, with details of plated metal fittings at each end of the tube. Mounted on simple and geometric metal fixtures, the Stick lamps creates an almost graphic expression. The Stick & Curve collection includes a table lamp, wall lamp and pendant. Every lamp comes with inbuilt LED light source. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

CLAM The Clam series consists of a table and a wall lamp characterized by its two opposing shades playing with direct and indirect lighting. In a very Japanese inspired manner, the minimalist lamp smoothly reflects the light to both sides of the gently curved metal screens. The lamp is beautifully crafted in oxidized, plated, and subsequent hand brushed metal. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

SITTING MAN A Reminiscing the silhouette of a sitting man, The Sitting Man is a light sculpture with an illuminating glass sphere positioned in the middle of a spiralling composition. The complex structure is a fine-tuned balance between structure and weight, aesthetic and function, with the attempt of challenging our perception of form and light. When turned off the ceramic material is in the same nuance. But when lit the structure reflects the light in different directions. The Sitting Man comes in two sizes, a floor lamp, and a table lamp. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

BIG FOOT At first glance the Big Foots collection looks heavy and dense, yet on further inspection, the fiber concrete bench, side tables and coffee table are light-weight and mobile. With nods to brutalist architecture and the world of contemporary sculpture, the cylinder-shaped legs and textured, painted surfaces makes the collection stand out in the crowd. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

DROP CHANDELIER You almost feel the movement of the Drop Chandelier. As a free-flowing sculpture, it takes in the space and insists on a life of its own. While the Drop Chandelier collection honors modernist lamp designs of the 1950s, it also celebrates an experimental, innovative approach with its gently curving shades and 14 flexible and functional adjustable arms - creating countless options, variations and angles. The beautifully crafted oxidized & plated metal body is subsequently hand brushed and the lamp brightens up the room elegantly with a warm, pleasant light. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

TRIBU Inspired by old tribal sculptures, the Tribu collection is made of a fiber concrete base with a soft linen cushion on top. Characterized by a surface of architectural concrete lamellas, Tribu emphasizes the fine balance between sharp architectural lines and a somewhat softer curve of the upholstery seat. The Tribu collection comprises a bench and a stool cast in lightweight fiber concrete and a cushion in chalk-colored linen, creating a unique surface texture and increasing overall mobility. Each piece is hand painted to create a textured unique surface. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

PHANTOM Characterized by its intentional naive and handmade expression and raw, unpolished surface, the Phantom table reveals its unique casting technique. The series is at once fragile, delicate and bulky in its appearance. The Phantom coffee tables are available in a tall and a low version made of cast aluminum and hand painted in a beautifully burned antique color, giving the tables a sophisticated and subtle expression. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

PILLAR Inspired by the rich lustrous use of material in the 1930s Art Deco movement, the Pillar coffee table is a piece of statement furniture characterized by the contrast between a paper-thin tabletop and voluminous base. The Pillar coffee table comes in a tall and a low version, made of plated metal in two colours – brass and burned black - ensuring a sophisticated appearance that will be a unique addition to any home. The curved exterior makes this table great for classic and contemporary interiors alike. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

DROP BULB CHANDELIER

Its detailed suspension has industrial and maritime references and is beautifully crafted in plated metal, which is subsequently hand brushed to obtain the perfect finish to complement the circular opal glass lampshades. While the Drop Chandelier Bulp collection honors the iconic, modernist lamp designs of the 1950s, it also celebrates an experimental, innovative approach with its 14 flexible and functional adjustable arms - creating countless options and variations. The chandelier elegantly brightens the room with a warm light and becomes a sculptural object in the ceiling. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

BRICK CANDLE HOLDER Inspired by architectural building components, the Brick Candle Holders is made of exquisite solid marble, elegantly carved in sharp geometric shapes. Each candle holder is completely unique, emphasising the rich and beautiful patterns of natural stone. The polished surface softly reflects the light from the candle, adding a warmth to the Brick Candle Holders. Brick comes in two shapes and sizes, complementing each other in an architectural composition or stand alone as sculptural object. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

PIVOT is a simple and yet refined lamp design, that gives the user the ability to project light on a certain object or space. Pivot can be used to highlight all kinds of objects, such as art pieces, sculptures, flowers, and plants. Pivot can also be used to create a warm and inviting atmosphere in the room, and especially to play with the contrast between light and shadows. Pivot consists of a rotating aluminum lampshade, mounted directly to a square shaped Iron base. Both objects are designed with precision to fit each other and enable the lampshade to rotate smoothly. The lamp is plated in a brushed bronze color, to create a warm and inviting light. Pivot is the French word of an object turning around its own axis or center point. Designed by Kristian Sofus Hansen, Malo Sannié & Tommy Hyldahl.

COBRA A tribute to the Cobra Arts Movement of the 1960s, the collection is the epitome of quirky vases that will add joy to any interior setting. Think whimsical, soft and organic shapes unmistakably reminiscent of human silhouettes and curves. True to the Cobra artists way of working, the series takes its starting point in naive hand sketches leading to boldly silhouettes. As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

AD The round, geometric shape and sculptural construction of the AD Floor Lamp is influenced by the austere Brutalist movement of the mid-20th Century. The oxidized surface is textured and almost resembling concrete as a nod to the architectural source of inspiration. Thin aluminum plates comprising the plate geometry shape enclose the light source providing a smooth light scattering, the lamp is pleasant yet functional in every setting. It looks paper thin from some angles and solid from others playing with the subtle movement of light. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

DUSK & DAWN An art piece in itself, the Dusk and Dawn lamps are a unique source of light that lets the mind wander to planets, eclipses and Brutalist architectural details. The layered shades playfully divide the light into a rhythm of exposure contributing to an intimate and cozy atmosphere. The square, raw oxidized aluminium base meets the two rounded aluminum shades which, richly textured and with an almost concrete like surface, gives a certain depth to the smooth light. Designed by Nicolaj Nøddesbo & Tommy Hyldahl.

TOE A tribute to 70s futuristic design and space age, Toe is a lounge chair with expressive aesthetics and high seating comfort. Characterised by a sculptural approach to furniture design, the Toe Chair has a thick fluted upholstery running from seat to back, creating a linear and voluminous shape. The open chair form gives a free and easy seating experience, while the special combination of different kinds of foam ensures an overall high seating comfort. Toe Chair comes in off-white bouclé fabric, Taupe sunproof fabric, sheepskin & chalk-colored linen fabric. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

DUCK Reminiscent of little, individual three-legged characters or friendly creatures, the Duck series is a playful and exuberant addition to a more minimalist series of trays, vases, bowls, pots, jars and plates in a modern interior. Yet, true to the design manifest of 101 Copenhagen, the collection is held in natural colours to fit into the Scandinavian home. Duck comes in various shapes, sizes and colours - like individual family members gathered around a table. As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included. Designed by Nicolaj Nøddesbo, Tommy Hyldahl & Kristian Sofus Hansen.

ARC As an ode to the Art Deco period, Arc is a transformation of lavish architectural details into a collection of minimalist furniture. Featuring a Console and Bench, Arc is characterised by steps and arches, creating a certain depth and play of shadows. Made from a base of fiber concrete, the Arc Console features a tabletop of exquisite marble, emphasising the rich and beautiful patterns of natural stone. The polished surface softly reflects light, adding a warmth to the Arc Console. Arc Bench is made entirely from cast fiber concrete, with the option of adding the Arc Bench for increased comfort. The rectangular Arc Bench is made of foam with linen fabric in the color chalk, creating a beautiful contrast between the smooth concrete surface and the tactile cushion. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

FUNGUS With its mushroom shaped design, the Fungus Table Lamp creates a unique illumination in any interior setting. Inspired by 70's design, Fungus is a reinterpretation of futuristic lighting design into a ceramic table lamp. Made from ceramic, Fungus emphasizes the natural beauty of its material, highlighting the tactile and textured ceramic surface. Fungus comes with a ceramic lampshade placed on top of a metal frame, mounted to a cone shaped lamp base. Everything, except the metal frame, is made of ceramic. As it is a hand glazed nature product, the colours may vary slightly. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

TRIBU Inspired by old tribal sculptures, the Tribu collection is made of a fiber concrete base with a soft upholstered cushion on top. Characterized by a surface of architectural concrete lamellas, Tribu emphasizes the fine balance between sharp architectural lines and a somewhat softer curve of the upholstery seat. Combine several Tribu Chairs to create a sofa lounge seating. Each Tribu Chair includes two mounting brackets, which can be mounted underneath each leg and easily tightened with a screw.

The Tribu Collection comprises a chair, bench and puff cast in lightweight fiber concrete for increased mobility. The product is hand painted to create a unique surface texture with delicate colour variations. Each product includes a soft cushion upholstered in a Taupe fabric from Sunproof. The Taupe Sunproof fabric is suitable for both indoor and outdoor use. The fabric is highly resistant towards stains, water and sunlight. As well as very easy to clean. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

SHINJU TRAY Shinju, the Japanese word for Pearl, is a collection of trays carried on ceramic pearls. Differentiating in size and positioned sporadically, the pearls add a certain lightness and becomes a jewellery-like detail. The rectangular shape and depth of the tray, makes Shinju ideal for different storage purposes, or as a decorative object with a branch or set of dry flowers. Shinju Tray comes in two sizes and is made from ceramic. The surface is hand glazed in order to achieve a unique surface texture. The colours may vary slightly, due to that it is a handmade product. The tray is not 100% waterproof. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

SCULPT STOOL The design of the Sculpt stool is inspired by the Brutalist architecture that emerged in the 1950s - true to the concrete building components and simplified block-like structure of the movement, the stool is cast in lightweight fiber concrete and hand painted creating a unique texture of the surface. The accompanying Sculpt cushion can be purchased for increased comfort. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

CLAM The Clam series consists of a table and a wall lamp characterized by its two opposing shades playing with direct and indirect lighting. In a very Japanese inspired manner, the minimalist lamp smoothly reflects the light to both sides of the gently curved metal screens. The lamp is beautifully crafted in oxidized, plated, and subsequent hand brushed metal. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

HIHAT One recognizes various musical instruments when looking at the playful Hi-Hat knobs, from a classical cymbal to the bell of swinging brass instruments. The knobs are made from iron and comes in a plated brass, burned black, brushed steel or plated bronze colour, adding warmth and elegance to the wall. Each knob comes with two different screws for mounting directly in a wall or to mount on a kitchen or furniture front. All knobs are sold in sets of two. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

COBRA A tribute to the Cobra Arts Movement of the 1960s, the collection is the epitome of quirky vases that will add joy to any interior setting. Think whimsical, soft and organic shapes unmistakably reminiscent of human silhouettes and curves. True to the Cobra artists way of working, the series takes its starting point in naive hand sketches leading to bodily silhouettes. As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

SUMO Sumo celebrates the human body. As a reference to the Japanese sport Sumo, all vases are voluminous in size and shape, resting on top of narrow pointing legs. All vases have different openings from the traditional narrow vase openings to double openings and deep carved openings. The Sumo collection looks at the contrast between familiar vase shapes and the addition of more artistic, abstract ideas and details, questioning our individual perceptions of the shape of a vase. The Sumo collection is designed as a stand-alone artistic object yet forming a united family of objects when gathered. As it is a hand glazed natural product, the colours may vary slightly and as it is not 100% waterproof, a bag for fresh flowers is included. Designed by Kristian Sofus Hansen & Tommy Hyldahl.
